

## Welcome to IDEaS SmartSpace March 2024

We continuously work to expand the capabilities of IDEaS solutions to address your needs and improve your overall experience. With our ongoing commitment to incorporate user feedback in our solutions, we are pleased to announce the March 2024 Release of IDEaS SmartSpace.

### What's New?

#### March 2024

##### Database Setup - Merging Function Rooms

When you rename a function room in your Sales and Catering system, both the old function room and the new function room display in SmartSpace, appearing as two separate rooms. In an upcoming SmartSpace release, User Managers will be able to use a new Merge Function Rooms option to combine the rooms and merge their history. When you're done, you will have only the new function room with the complete history, including booking and historical data. Throughout the application, you'll see an indicator for merged rooms. For this current release, this functionality is available for internal teams to assist in the merge process. If you have questions, contact SmartSpace support to discuss this functionality.

We sincerely thank you for choosing IDEaS as your partner and appreciate your support in helping us enhance your Meetings & Events operations.

Sincerely,

**IDEAS PRODUCT MANAGEMENT TEAM**
