

Welcome to IDEaS SmartSpace September 2024

We continuously work to expand the capabilities of IDEaS solutions to address your needs and improve your overall experience. With our ongoing commitment to incorporate user feedback in our solutions, we are pleased to announce the September 2024 Release of IDEaS SmartSpace.

What's New?

September 2024

Space Utilisation - Data Tables

You can now view your Space Utilisation data in tabular format. This allows you to easily view the metrics in summary form for each tab (Venue Occupancy, Revenue Per Area, and Utilisation by Function Room) while also being able to drill through to see each day's bookings. Just click  to view your data in a table and click  to return to the graphical view.

The data won't include overrides or entries into non function/meeting rooms in the Weekly Input tab.

Excel Export Support

You now can export more of your SmartSpace data to an Excel file. This enables you to easily work with your data outside of SmartSpace, if desired. Here's a list of where you can now export from:

- Conversion by Arrive Date / Year on Year Revenue table
- Conversion by Create Date / Year on Year Revenue table
- Enquiries by Month by Leadtime
- Enquiries by Attendees by Leadtime
- Enquiries by Revenue by Leadtime

We sincerely thank you for choosing IDEaS as your partner and appreciate your support in helping us enhance your Meetings & Events operations.

Sincerely,

IDEaS PRODUCT MANAGEMENT TEAM
