

## Welcome to IDEaS SmartSpace October 2025

We continuously work to expand the capabilities of IDEaS solutions to address your needs and improve your overall experience. With our ongoing commitment to incorporate user feedback in our solutions, we are pleased to announce the October 2025 Release of IDEaS SmartSpace.

### What's New?

#### Non Consecutive Events

You can now view your booking data with more accuracy on the following Daily Demand calendars:

- By Attendees
- By Number of Function Rooms
- By Status

Currently in SmartSpace, a booking with multiple event dates displays on the Demand calendar inclusive of all the dates. However, this can lead to event space showing as booked for dates where it isn't being used. The new SmartSpace calculation will display only the dates where your event space is being used.

#### Example

[July 2026 wedding with a rehearsal dinner, bridal shower, and wedding brunch, encompassing July 11 to 19](#)

**Current method:** Events display on Demand calendar for each day, July 11 to 19 (9 days)

**New method:** Events display on the Demand calendar for July 11, 17, 18, and 19 (4 days)

This gives you a better view of your actual demand across those dates in July.

#### Daily Demand - 12-Month Export

You can now export the Daily Demand data for periods of up to 12 months:

- By Attendees
- By Number of Function Rooms
- By Status
- By Revenue

We sincerely thank you for choosing IDEaS as your partner and appreciate your support in helping us enhance your Meetings & Events operations.

Sincerely,

IDEAS PRODUCT MANAGEMENT TEAM
